

Showcase Guidelines

The **PhotoKenosha Group** has the opportunity to display our best photographs at Sazzy B Restaurant in downtown Kenosha. Work is changed quarterly and should follow these guidelines. One piece per member will be included each time unless additional items are required to fill available gallery space. Currently, Sazzy B is not charging a commission.

- All work needs to be suitably framed and ready to hang for presentation in a gallery.
- If the photo is matted, white is preferred but not required.
- The preferred frame is a simple wood or metal one; please, no plastic frames.
- Canvas and aluminum prints are also acceptable.
- Plexiglass is preferred for safety reasons, but not required.
- Photographer's name, title of photo and the year printed should be attached to the back.
- Wire only (no loops, hooks or tabs) See diagram below for proper placement. Use hardware appropriate to the weight of the work.
- Send info on price, title, and date of print to Ron Story at ronstory45@gmail.com at least a day before bringing the framed photograph to the restaurant.
- We may be limited by the space available as well as the size of the framed prints, but

every effort will be made to accommodate all members who bring photos.

NOTE: These measurements are approximate. The horizontal wire should not be down more than $\frac{1}{3}$ of the outside measurement. Similarly, the top of the wire should peak about a half inch below the bottom edge of top of the frame. Standard hanging wire is recommended but not required.
